

“Creation of Icenian Agendas for Future Growth”

In order to determine the priorities of Icenia from month to month, the Senate along with the minister of defense (MoD) and interior (MoI), and president should develop an agenda outlining the focus areas in which Icenia citizens and government officials should use as a guiding tool to continue to grow Icenia. While this agenda is recognized to not be exhaustive, it should serve as a guide for the government and citizens on what tasks need done.

Whenever a new senate is elected, the senate will have 7 days to publish a new or updated agenda.
