

The Medal and Award act

This act has been proposed to bolster the activity of Icenia and the citizen's work for the government.

This will be done through the giving out of what will from now on be referred to as an award.

A citizen which is involved in the process of giving out an award may not win that award.

A citizen may only win one award per month, not including permanent awards.

Permanent awards can be given out at any time, under the requirements specified under their part.

All monthly awards must be awarded after the 23rd of the month and before the start of the next senate's term.

Once all the awards have been decided, every winner will be announced by the respective part of government whose award is being given out.

The following awards will be given out:

MONTHLY:

Icenian of the month

- Given out by a senate majority vote monthly, nominated by any government member.
- Recognizes the work put into the state by an individual over one month in a non military capacity such as building public infrastructure, derelicting, making public farms et cetera.

Engineer of the month

- Given out by the secretary of defense
- Rewards infrastructure and military non war work for the state such as building vaults, iceroads and other defensive infrastructure.

PERMANENT:

Icenian Distinguished Service Award:

- Given for exemplary non war long term work for the state, finishing many public projects and such.
- Given out by the president if a nomination arises. The senate would nominate players by a majority.

Order of the Guardian:

- Given out by the secretary of defense for major long term non war work for the state in the field of constructing infrastructure and defenses.

Distinguished Builders Order:

- Given out by the secretary of the interior to builders who have shown a high standard and quantity of non military buildings in Icenia.
